Standard Features

Hitches: 30,000# gooseneck hitch and 24,000# receiver hitch

Structural: Structural steel channel runners, crossmembers and hitch components. 1/8" tread plate steel deck, skirting and headache rack

Paint Process: Entire assembly goes through abrasive blasting cabinet, acid etching, zinc powdercoat primer and premium black powder coating process. Black is the only color available.

Side Skirting: Full side skirts w/fender wells.

Tool Boxes: 4 built-in tool boxes (in front and behind wheels on each side.)

Electrical: 6 LED stop, turn, tail lights. 4 LED backup lights and all required clearance lights.

Tie Downs: Recessed d-rings and stake pockets.

Side Racks: 4" flip down hinged side racks w/greasable hinges. Brackets for 2 X 4 lumber tailgate.

Special Features: Tapered rear corners and deep skirting on rear.

Fuel Filler: Black steel fuel bezel (Diesel w/DEF fluid requires second fuel bezel)

Mud Flaps: 19" X 24" rubber w/anti-spray grooves.

To ensure choosing the proper size bed for your truck, the following information should be known:

1. Cab to axle measurement (measure from back of cab to center of rear axle)
2. Rear tires measurement (measure outside to outside width of rear tires)
3. Frame rails (measure outside to outside of frame rails at rear of truck)
4. Year, make and model of truck
